---

**General Purpose:**

The Wastewater Collections Operator II is responsible for the operation and maintenance of the South Fort Collins Sanitation District (SFCSD or the District) collections system by monitoring, maintaining, and repairing lift stations, manholes, Air Release Valves (ARV), wastewater collections systems and force mains and all associated appurtenances. This position reports directly to the Collections Supervisor.

**Essential Functions:**

- Operates, inspects, troubleshoots, repairs, and maintains a variety of appurtenances associated with the wastewater collections system.
- Services equipment, repairs and maintains main sewer pipes / service lines, force mains, lift stations, manholes and all appurtenances associated with a wastewater utility.
- Performs and ensures safe ingress/egress into confined spaces (manholes, wet wells, vaults, and similar).
- Assists customers with questions related to the wastewater system.
- Implements corrective actions to malfunctioning and inoperable equipment, as directed.
- Performs all required repair and maintenance of all facilities owned and associated with the District.
- Documents all projects for District compliance.
- Ability to operate a CCTV truck and equipment associated with wastewater.
- Accurately completes service orders, data entry and research associated with projects daily.
- Repairs sewer back-ups and damage in a safe manner.
- Assists the Engineering department with constructions inspections services and sewer utility locating services.
- Assists with the Pre-Treatment program as needed.
- Ensures accountability, maintenance and responsibility for work vehicle, tools and equipment related to the job.
- Assists Operations Department in completion of any / all projects when assistance is needed.
- Provides back-up and on-call coverage in the department.
- Complies with the Collection's department cleaning schedule for district facilities.
- Ensures that the uniforms provided will be worn each workday, and will be unaltered, fitted, and clean.
- Other duties as required and necessary to ensure the success of the District.

**Supervisory duties:**

- None.

**Knowledge, skills and abilities:**

- Ability to consistently promote, support, work, and act with an expectation of agency in a manner in support of the District's mission, vision and values.
- Must be well organized, thorough and have effective time management skills.
- Knowledge of basic math with the ability to troubleshoot and problem solve in the field.

- Ability to learn specialized software and operate hand-held reading devices.
- Ability to learn and understand the operations and maintenance of a wastewater system.
- Ability and maturity to perform assigned tasks unsupervised throughout an eight (8) hour day.
- Ability to communicate effectively with customers, contractors, developers, distributors, co-workers, and supervisory staff verbally or in writing.
- Knowledge of hand and power tool operations with a safety conscious attitude.
- Ability to operate a CCTV truck and equipment associated with wastewater.
- Proficient understanding of utility mapping drawings and sketches.

**Additional Requirements/Licenses/Certifications:**

- Must have reliable transportation.
- Current valid Colorado Commercial Driver's License (CDL) Class B required, or Class A with Air Brake and tanker endorsement preferred
- Current Colorado Class 2 State Wastewater Collections certification required

**Materials, software, and equipment directly used:**

- Telephone, computer, hand tools, power tools, fleet vehicles, jetting / vac truck, TV inspection truck, hand-held reading devices, diagnostic equipment, rigging equipment, pneumatic tools and specialized program platforms related to sewer TV inspection.
- Microsoft Office software, including Outlook, Excel, and Word

**Physical Activities:**

*The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.*

- While performing the duties of this job, the employee is regularly required to talk or hear. May involve climbing ladders, stairs, steps, and traversing catwalk grating, pushing, pulling, bending, stooping and kneeling on a frequent basis and working in confined space and manual dexterity required to complete work tasks through safe and proper operation of power and hand tools, and motor vehicles.
- Specific vision abilities required by this job include close vision, distance vision, color vision, and ability to adjust focus.
- Extremely strenuous physical work involving objects in excess of 100 pounds occasionally and/or up to 75 pounds frequently.
- Moving, positioning, and carrying loads of up to 50 pounds upstairs and loading on four-foot-high surfaces frequently.

**Education:**

- High School Diploma or General Education Diploma (GED) equivalent is required.
- Demonstrated safety training related to the industry is required.
- Basic knowledge of Microsoft Word and Excel is required.

**Experience:**

- A minimum of two (2) years of experience related to the water and wastewater industry.
- Experience in reading and understanding engineered blueprints and diagrams is preferred.
- Operational experience working on a Jet/Vac truck is preferred.
- An equivalent combination of education and experience may be substituted on a year for year basis.

**Working environment:**

*The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job.*

- Work may be performed in field, and office environment during all types of temperatures, weather conditions and all times of day or night while being exposed to excessive noise from machines. Snowy, wet and muddy conditions will exist. Work may be done in confined or cramped spaces.
- Regular and long-term exposure to work areas containing toxic/caustic/hazardous/volatile chemicals; extreme conditions such as hot/cold; sharp hazards; dust/fumes/gasses; electrical shock; moving mechanical parts; high pitched and/or constant loud noise; sometimes long-term contact with bacteria and odorous, infectious/obnoxious material
- Work may involve assisting with sampling, calibration of equipment and process instruments calibration / maintenance often in difficult areas.
- Ability to use gas monitoring equipment, safety tripod and harness and any other required safety equipment for entering both high and low hazard confined spaces for either District.
- Personal Protective Equipment (PPE) required including cold weather gear, eye protection, gloves, and provided uniform.
- A clean and safety-conscientious environment required while employed
- Work may involve long hours and overtime during holidays, weekends, and evenings.
- Subject to call-back work and incumbent must be able to respond to emergency
- May be required to rotate on-call responsibilities.

*Passing a driving record (MVR) and criminal history background checks will be required prior to the start of employment.*
