

# Introducing the Cobb Lake Regional Water Treatment Authority created by Fort Collins–Loveland Water District, Towns of Eaton, Severance & Windsor

We are proud to announce our involvement in a new regional partnership to secure sustainable water solutions for the future of our region! The Cobb Lake Regional Water Treatment Authority (CLRWTA) is a regional collaboration created to meet the long-term water treatment needs of the Fort Collins-Loveland Water District and the Towns of Eaton, Severance and Windsor.

To treat and deliver clean, safe and affordable water to these four service areas, CLRWTA will be constructing a state-of-the-art water treatment facility and an approximate 20-mile underground delivery pipeline. The facility is anticipated to be operational by 2030. Learn more about this exciting project at [www.CLRWTA.org](http://www.CLRWTA.org).
